A bit about me

I get to meet, support and spend quality time with a huge variety of teams and organisations that are filled with amazing individuals...what's not to love! I've always been intrigued by people and energised by exploring true potential.

I love designing and delivering great solutions for clients by immersing myself in

I'm passionate about the link between Clear Vision, great talent and high engagement in achieving both customer delight and business growth. This, for me, underpins everything. On a one to one level I am interested in you, your world, your goals and how we can get there.

When I'm not working my passion is Netball. Playing, coaching, and winning! I re-started after a break since playing at school. I have since won 'Most improved netball player' twice in 5 years. I am trying to work out if my improvement has been amazing or if I was really that bad when I started!

Gabi was recently nominated by the LE team for 6 awards.
